

# East Shallowford Farm

## Diary Day – Tuesday

The children woke up to their first morning as Shallowford Farmers. The children had a taste of being a real farmer and went out to feed and tend to the animals before breakfast.

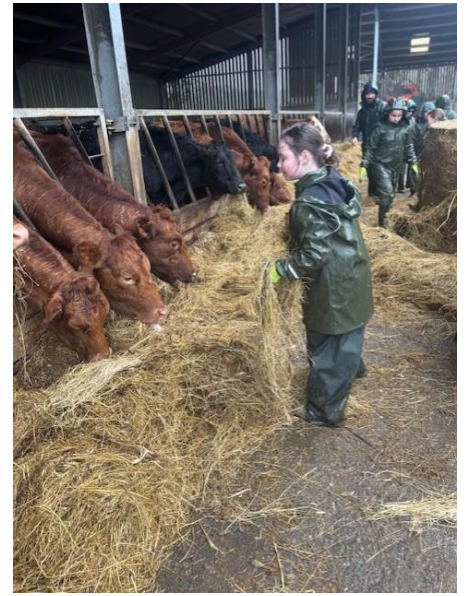

The children really valued their breakfast this morning and enjoyed large bowls of porridge, warm toast and rhubarb compote. There were lots of full tummies and empty plates.

After breakfast we had a rainy walk to the neighbouring farm to feed and tend to the cows. We learnt about how cows support local conservation and about the cost of farming. We took part in a haybale race, then sat chilling with the cows for a while!

After lunch we completed some forest school games and went on a pony walk.

After a day of busy farming we settled down to a scrumptious home made dinner a nice hot shower, board games and an early night. All dorms were safely tucked up in bed and quiet by 9pm.
